

Need **access**. Need the right opportunity.
Need the ability to benefit from support
you are entitled too. Need to close gaps
in safety nets, to end funding cuts,
disconnected services and experiences of
stigma. Needs **basics**. Need the essentials
to a decent life and your rights to them.
Need a rise in wages and social security.
Need to end the rise in the cost of living.
Need to be able to provide basic resources
for children, young people and families.
Need access to safe housing, affordable
supermarkets, health services, decent
transport and nature. Need **connections**.
Need the resources, opportunities and
spaces that bring individuals and groups
together. Need communities that reflect
the needs and aspirations of the people
who live there. Need development and
investment in resources, spaces and
services for everyone to thrive.

Change the abc's. Needs Now.
